CHANGE

Slender and to the point

Simple elegance with high functionality is the essence of this system. A slender profile combines an acrylic cap bar with an anodized aluminum finish for an elegant understated sign. The system can also be customized by adding color to the thin cap bar. Adaptable to nearly any environment inserts can be printed on nearly any printer and changed quickly.

MATERIALS

Base plate: 1/16" Thick aluminum construction
Lens holder: brushed aluminum face
Lens: 1/4" Thick optically clear acrylic

INSERTS

Printing methods: Ink Jet, Laser, Digital Print
Printable surfaces: paper, frosted polyester film

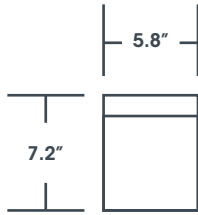

MOUNTING

Removable d/s tape: suitable for most wall surfaces
VHB d/s tape: extended security and suitable for mounting to glass
Countering holes: to mechanically secure sign to surface of wall
