NEWAGE

Timeless into the future

Its timeless design makes NEWAGE a new standard for slim modular sign systems. NEWAGE signs focus on the frame with a thin sophisticated design that can be part of a range of options including ADA, desk mount, directory, freestanding, projected or suspended. Adaptable to nearly any environment inserts can be printed on nearly any printer and changed quickly.

MATERIALS

Frame: 1/8" Width x 1/4" Depth aluminum extrusion
Lens: clear matte (non-glare) acrylic

INSERTS

Printing methods: Ink Jet, Laser, Digital Print
Printable surfaces: paper, clear acetate, frosted polyester film

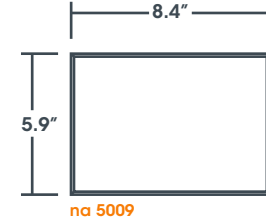

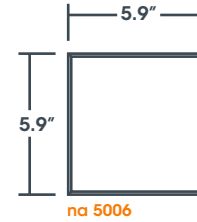

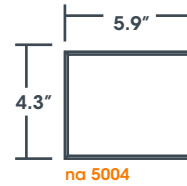

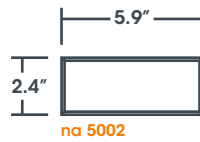

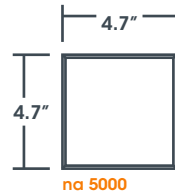

MOUNTING

Removable d/s tape: suitable for most wall surfaces
VHB d/s tape: extended security and suitable for mounting to glass
Countersunk holes: to mechanically secure sign to surface of wall
Suspension mount: sign hangs from cables secured to ceiling
Projecting mount: mechanically secured to surface of wall
Freestanding: sign attached to weighted base

NOTE

For ADA compliance, tactile letters and Grade II Braille applied

Door Signs

Directory Signs
