**CRISTALLO**

Pure elegance in glass and stainless steel

In scope and diversity CRISTALLO has something for every requirement. CRISTALLO uses only single-panel tempered safety glass. Easily exchangeable inserts allow space for your own ideas – with our software, to make a statement that bares your signature.

➤ This product consists of a **single-panel** and can be used with texts printed on film.

➤ Suitable for indoor and outdoor use.

➤ Available in different sizes (see table).

For design software and text design materials see page 39.

ADA options available.

Get an exclusive overview with the CRISTALLO series.  
Clean lines make your destination clearly visible!

with graphic film (price upon request).

## NEW AGE

Timeless into the future

Timeless and almost frameless, the modular NEW AGE series is consistently on the mark and takes visitors straight to their destination. Open to every corporate design guideline, NEW AGE always shows you at your best.

Easy to print and exchange paper inserts for every element guarantee absolute flexibility. A specially developed acrylic plate mounting and high-tensile aluminum extrusions make for an airy look as well as long-lasting stability.

Clean lines, easy handling ...  
and plenty of creative freedom

For design software and text design materials see page 39.

BOX door sign  
made from the finest  
materials to meet highest  
design requirements

**Material:**

- ABS plastic, black
- Aluminum in stainless steel look
- 0,2 inch single-panel tempered safety glass

Simple insertion and exchange of texts.  
For the stainless steel finish to  
show best effect, we recommend display  
text printed on transparent film.

**BOX door sign**

door sign	6.1 x 6.1 x 0.5	<b>BO 1000</b>	

## BOX

Sign vision in all walks of life

**BOX** – the door sign for the discerning customer. Modest only in price, it's manufactured from the finest materials and absolutely robust. Show visitors your best side – make an impression. BOX is timelessly elegant and looks good against any background. For ease of text composition and speed of assembly, it cannot be beaten. For the brushed stainless steel finish to show the best effect, we recommend graphic inserts printed on transparent film.

For design software and text design materials see page 39.

ADA options available.

## CLEAR

Visibility unlimited

Depending on size, one or two of the stylish brushed aluminum mounts will suffice. Double-panel tempered safety glass underline the presence of your company. Whether side, top or base mounted, the strong aluminum extrusions hold the two plates firmly and reliably on the wall.

And between them, there's plenty of room for your message – printed on a transparency that is simple to change.

For design software and text design materials see page 39.

ADA options available.

This product consists of **two panels** and can be used with insert transparencies.

## CLEAR ROD

Transparent at every level

Whether you produce your texts by screen or laser-printing, on film, by engraving or with other technology – CLEAR ROD conveys an impressive presence through its 0.4 inch acrylic panel. Great for outdoor use or as a stylish directory inside your building.

Variable in size and format, quick and easy to maintain.

VARIO SIGN offers many advantages: two interchangeable frame types on the same base-plate and high design freedom with text printed either on individual strips or on full sheets of graphic insert paper.

Model Rondo available in five contemporary colors.

**BEST SELLER**

material: ABS plastic and non-reflecting polycarbonate

Model Rondo

Model Futur\*\*

\*\*Model Futur only available in white.

## VARIO SIGN

Structured at every turn

VARIO SIGN brings your visitors faster to their goal. Shape and color provide organization to the longest corridors. Doors take on the look of your company. It's all a matter of form.

For design software and text design materials see page 39.

## FRAME

### Pure minimalism

FRAME stands for information with understatement for staff and visitors alike.

With its side-mounted rails in satinized aluminum and 0.1 inch single-panel tempered safety glass FRAME lies extremely flat (0.3 inch) on any wall. Instantly changeable texts – without tools.

For results in keeping with the tasteful character of the range, we recommend display texts be printed on matte finish polyester film.

## LINEA I

In line with your image

The shortest distance between two points isn't always a straight line. Applied to communication, this gives LINEA I a distinct advantage. Gently contoured, with clear-cut delicate lines. Ideal range of applications due to flat frame back and optional vertical or horizontal format. Virtually the entire space is at your creative disposal, elegantly framed in satin silver aluminum.

For design software and text design materials see page 39.
